# NED UNIVERSITY OF ENGINEERING & TECHNOLOGY

SECOND YEAR(BACHELOR OF SCIENCE IN COMPUTER SCIENCE & INFORMATION TECHNOLOGY)
FALL SEMESTER EXAMINATIONS 2022
BATCH 2021

Time: 3 Hours

Dated:03-02-2023
Max.Marks:60

## Academic Reading & Writing - HS-115

**Note: Attempt all questions following the guidelines provided for academic writing.**

1. Read the given abstract to Identify and paraphrase the following in your own words **[CLO-3; 10 Marks]**
   i. Introduction/background
   ii. Aim
   iii. Method of research
   iv. Results

**Abstract:** Alarming statistics in mathematics education in Nigeria indicated that very few or almost none of the students in high school fancy taking up a course in mathematics in the University. Moreover, less than ten percent of these students enjoyed lessons in mathematics. Additionally, cultural and racial prejudice as well as poverty are serious issues confronting many of today's high school students, thus a set of thirty numerical equations to solve would not be top priority. Consequently, mathematics teachers have sought to determine how they could possibly capture the attention of teens distracted by serious problems and events in their daily lives. Although educators have made some efforts towards improving these trends, students' disinterest in continuing mathematics study beyond secondary school level is still a tremendous problem. In this paper, student preference of multimedia presentation in mathematics education as opposed to traditional instruction was investigated for high school students learning mathematics. The survey instrument presented a 5-point Likert scale with students rating 17 statements associated with acceptance of the presentation. Results from the survey carried out indicate that multimedia presentations can improve students' understanding, enthusiasm, class attendance and satisfaction.

2. Summarize the following excerpt from a research article titled "Teens, Social Media & Technology 2018" by Monica Anderson and Jingjing Jiang **[CLO-3; 10 Marks]**

The social media landscape in which teens reside looks markedly different than it did as recently as three years ago. In the Center's 2014-2015 survey of teen social media use, 71% of teens reported being Facebook users. No other platform was used by a clear majority of teens at the time: Around half (52%) of teens said they used Instagram, while 41% reported using Snapchat. In 2018, three online platforms other than Facebook – YouTube, Instagram and Snapchat – are used by sizable majorities of this age group. Meanwhile, 51% of teens now say they use Facebook. For the most part, teens tend to use similar platforms regardless of their demographic characteristics, but there are exceptions. Notably, lower income teens are more likely to gravitate toward Facebook than those from higher-income households – a trend consistent with previous Center surveys. Seven-in-ten teens living in households earning less than $30,000 a year say they use Facebook, compared with 36% whose annual family income is $75,000 or more. 2018

It is important to note there were some changes in question wording between Pew Research Center's 2014-2015 and 2018 surveys of teen social media use. YouTube and Reddit were not included as options in the 2014-2015 survey but were included in the current survey. In addition, the 2014-2015 survey required respondents to provide an explicit response for whether or not they used each platform, while the 2018 survey presented respondents with a list of sites and allowed them to select the ones they use. Even so, it is clear the social media environment today revolves less around a single platform than it did three years ago. When it comes to which one of these online platforms teens use the most, roughly one-third say they visit Snapchat (35%) or YouTube (32%) most often, while 15% say the same of Instagram. By comparison, 10% of teens say Facebook is their most-used online platform, and even fewer cite Twitter, Reddit or Tumblr as the site they visit most often.

3. (a)At present, the population of some countries includes a relatively large number of young adults, compared with the number of older people. Do the advantages of this situation outweigh the disadvantages?
Give reasons for your answer and include any relevant examples from your own knowledge or experience. Write at least 250 words. **[CLO-2; 10 Marks]**

(b) Develop a thesis statement and three topic sentences for each of the following topics **[CLO-2;10 Marks]**

i. Causes and effects of air pollution
ii. Rising inflation in Pakistan

4. The table below shows usage of various mobile phone features between 2006, 2008 and 2010. Summarize the information by selecting and reporting the main features, and make comparisons where relevant. Write at least 250 words. **[CLO-1; 10 Marks]**

**Percentages of mobile phone owners using various mobile phone features**

| | 2006 | 2008 | 2010 |
|---|---|---|---|
| Make calls | 100 | 100 | 99 |
| Take photos | 66 | 71 | 76 |
| Send & receive text messages | 73 | 75 | 79 |
| Play games | 17 | 42 | 41 |
| Search the Internet | no data | 41 | 73 |
| Play music | 12 | 18 | 28 |
| Record video | no data | 9 | 35 |

5. (a) Complete the sentences with 'that/which/who' and, if necessary, a comma **[CLO-1;5 Marks]**

i. A computer virus is a program _____ can damage your computer.
ii. Brisk walking is something _____ many doctors recommend to those _____ are overweight.
iii. A marine engineer is someone _____ works with underwater equipment and systems.
iv. Vitamin C _____ is also known as ascorbic acid is required by the body for the growth and repair of tissue.
v. Global warming leads to climate change _____ will ultimately affect people all over the world.

(b) Revise the following statements to make them correct and concise **[CLO-1; 5 Marks]**

1. I myself, personally feel that there is absolutely no basis in fact for the idea that UFOs exist.
2. Getting up at 5am in the morning and repeating the exact same daily routine for three weeks wore me out and exhausted me.
3. Although we did see the first No Trespassing sign, which was bright yellow in color and very large, we went on further ahead, regardless, until we came to a second sign, which was exactly identical to the first.
4. In my opinion, I believe that my essay is equally as good as Krystal's and deserves equally as good a mark, which it would have got if it weren't for the actual fact that the professor hates me.
5. Friends are few and far between when you have absolutely nothing in your pocket and you are surrounded on all sides by creditors who are threatening to go to police and proceed with criminal charges unless you come up with the money you owe them.

---------- *Good luck!* ----------
