Business Communications – EA-218

CLO 1	Demonstrate effective oral communication and interpersonal skills in simulated professional and business situations.
CLO 2	Apply principles of effective communication in various types of business messages.
CLO 3	Compose effective business messages for various purposes and audiences.

Instructions:

- Attempt all questions. Attempt to answer every question from a new page.
- Apply the ***Principles (Seven Cs) of Communication*** while answering all your questions.

Q1. Compose a professional thank-you email to a guest speaker who recently delivered an insightful lecture on "computer science" at your university. In your email, express sincere gratitude for their time and expertise. Highlight key aspects of the presentation, such as the discussion on emerging technologies, ethical challenges in computing, and real-world applications in fields like healthcare, finance, and autonomous systems. Mention how the speaker's insights helped deepen your understanding of the subject and inspired you and your peers to explore computer science more seriously. Maintain a respectful and appreciative tone throughout the email. (12 Marks, CLO3)

Q2. Imagine you recently purchased a defective electronic device from an online retailer and are dissatisfied with its performance. ***Draft a complaint letter*** to the retailer expressing your concerns about the faulty product. Clearly outline the issues you have encountered, provide relevant details such as the order number and purchase date, and request a resolution, whether it be a replacement, refund, or repair. Ensure your letter is assertive yet respectful and includes all necessary information for the retailer to address your complaint effectively. (12 Marks, CLO3)

Q3. NexaTech Innovations is a forward-thinking technology company at the forefront of artificial intelligence and machine learning solutions. Our mission is to drive innovation through intelligent systems that solve real-world problems across industries. As we continue to expand, we are looking for highly motivated and skilled Junior AI Engineers to join our team and contribute to groundbreaking projects in AI, data science, and automation. They are hiring AI Engineers. ***Create a Resume*** to apply for the given job Advertisement.

(12 Marks, CLO2)

Job Ad: Junior Artificial Intelligence Engineer

Company Name: NexaTech Innovations
Location: Lahore, Pakistan
Job Type: Full-time

Job Description:

As a Junior AI Engineer at NexaTech Innovations, you will collaborate with experienced AI professionals and contribute to the development of intelligent systems and applications.

Responsibilities:

- Assisting in the design and development of AI and machine learning models.
- Preprocessing and analysing large datasets for training and evaluation.
- Supporting deployment of models into production environments.
- Conducting research and experimentation on modern AI algorithms.
- Collaborating with cross-functional teams to integrate AI solutions into products.

Qualifications:

- Bachelor's degree in Computer Science, Data Science, Artificial Intelligence, or a related field.
- Strong foundation in machine learning, deep learning, and data analytics.
- Proficiency in Python and relevant libraries (e.g., TensorFlow, PyTorch, scikit-learn).
- Experience with data visualization and model evaluation techniques.

• Strong analytical, problem-solving, and communication skills.

Benefits:

• Competitive salary based on skills and experience.
• Health and wellness benefits including medical and dental insurance.
• Access to AI research and continuous learning opportunities.
• A collaborative, innovative, and inclusive workplace culture.
• Work on real-world projects that make a difference.

Q4. You are the president of the AI Club at NED University, a student-led organisation dedicated to promoting awareness and innovation in artificial intelligence. The club is currently planning a campus-wide AI Awareness Week aimed at introducing students to the fundamentals of AI, its real-world applications, and ethical considerations. To ensure the success of this initiative, you are organising a formal meeting to discuss key aspects such as event planning, speaker invitations, workshop topics, and task delegation among members. Write a formal meeting notice and agenda that reflects the club's goals and outlines the discussion points for this important planning session.

Task:
a. Draft a formal meeting notice and an agenda for the meeting with at least four agenda points. (6 marks)
b. Write detailed minutes of the meeting, assuming the meeting has been held. (6 marks) (12 Marks, CLO2)

Q5. The Cultural Society of NEDUET recently organized a week-long Adult Literacy Camp on campus to promote basic education among underprivileged individuals. As the Secretary of the Society, write a formal memo report of 120–150 words for your university's newsletter. Your report should include the number of student volunteers involved, total hours spent in teaching, the location and classroom setup (chairs, blackboards, teaching aids), the number of participants who attended regularly, and any notable achievements or feedback received. Conclude by highlighting the positive impact of the initiative on both the learners and student volunteers.

impact of the iniative on both the learner & student volunteers.
